Rudy Poseika

He is a graduate U of T of Mechanical Engineering class of 1982. He joined CB Automations in 1989 and has been inside/outside sales as well as inside tech support and is now currently Manages the technical support group for Automation and Instrumentation products.

60th Anniversary Dinner meeting, May 26th, 2008

ISA Sarnia Section celebrated a major milestone with it's **60th (Diamond) Anniversary Dinner** in May, 2008.

The section invited all known living Past Presidents, and it was pleasing to see that many attended with their spouses.

The program was hosted by 60th Anniversary Chair Ken Armitage along with President Brian Davidson. Together, the hosts read "A History of the Oil Industry" and described how ISA Sarnia Section fit into that history.

Section Historian, Mike Murray, organized an excellent rolling slideshow of historic photographs which featured photos of many current and past ISA Sarnia Section members.

Everyone in attendance was given a commemorative 60th Anniversary ISA Sarnia Section Folio. This memorable evening was wrapped up with the professional entertainment by the hilarious comedian/magician Mark Strange.

President's Message

Here we are again, launching another ISA Year, and 2008-2009 promises to be just as stimulating as our 60th Anniversary Year (2007-2008). In Sarnia, we have demonstrated once again that we have a strong, active section that is world class. Perhaps to some, that sounds like an exaggeration. However, I must point out that once again, ISA Sarnia Section has won the designation of Best Section of all Small Gold ISA Sections in the world in 2007-2008.

This is certainly not the first time Sarnia has won this award. To be honest, I've lost count, but I'm certain that we have achieved this designation consecutively for at least 8 or 9 years. I must thank all of the members of the Sarnia Section Executive for all of their hard work over the past year, for the dedicated members of our executive are truly our "secret weapon".

There are some section executive members that I particularly want to congratulate at this time. To begin, I want to congratulate Kalpen Vaccharajani who is working hard (as usual) and doing a great job in his new role of District Vice President in Area 13. Next, I want to extend hearty congratulations Randy Dennie, who has been a pillar of strength and industry in our section over the years. On 13 October, Randy will be receiving the ISA Golden Achievement Award at the annual ISA Awards Gala in Houston. Well done Randy, what an honour for a great member of our section!

I'm going to reserve the last word of congratulations for our next dinner meeting. We have a hard-working, long-serving, but very quiet and humble member who has done an enormous amount of work for this section over the years. Truth be known, the member I am speaking of has done as much, or more, than anyone to help Sarnia Section win Best Section over the past many years. To learn more about this member, please come to our next dinner meeting on 29 September.

Finally, I want to remind everyone that we have entered into a ISA Show year. Thinking about our upcoming show has lead me to reflect upon the many, many great shows that ISA Sarnia has held over decades. How many new technologies were introduced, how many big deals were made and how many new friendly relationships commenced at ISA Shows? Our next ISA Show promises to be the best ever. Show Chair Brad King and his committee have big plans that will bring excellent value to exhibitors attendees alike. If you are in business, you shouldn't miss this opportunity to highlight your best product lines, and if you work in one of the key local industries, support companies or engineering consultant firms, come and learn about all the great new technologies, processes and services available today.

Brian Davidson,
President, ISA Sarnia Section
