DIGISTRIP

DIGITAL MULTIPOINT RECORDER

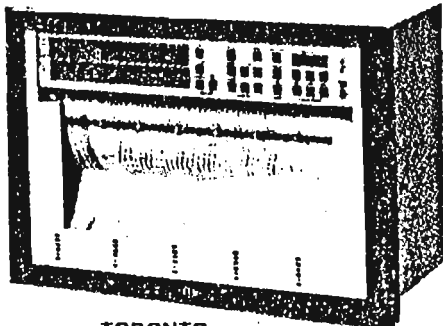

- Full Page Printout of 16 channels – Field Expandable to 128 Point Channel Capacity.
- Microprocessor Based – User Programmable.
- A New, Improved Math Package for On-Line Calculations – Standard.
- Cassette Programming Capabilities.
- High, Low and Rate of Change Alarms – Standard.
- Mixed Inputs from any T/C, RTD, Current or DC Voltage Sources.
- RS232C Interface.

YEW

High Performance Microprocessor Controlled

MULTIPOINT RECORDER

Combines analog and digital recording in one instrument

- Mixed inputs T/C's, mV or RTD
- Fully programmable for input, alarms and chart speed—set ranges, offsets and linear scaling
- High speed, six color printout (30 channels/8 sec's) with channel ID
- Digital printout of channel data and alarm data
- Digital display of point number, data and chart speed
- 250mm/10" calibrated chart width
- Panel mount and desk top version

*The User-Friendly
Programming Panel*

1

HEAT RATE efficiency computation

- Measures fuel consumption
- Stores heat rate curve
- Relates to GRID demand
- Computes overall efficiency
- Displays Δ DEV, Δ MW, MBTU.

2

EMISSION stack gas monitoring

- Measures all emissions
- Computes maximum concentrations
- Sets alarm limits
- Provide record and control output
- Displays % CONC.

3

TEMPERATURE and PRESSURE monitoring

- RTDs 0.01°C, T/C 0.1°C
- Pressure (SG or volts): 0.01%
- Records, alarms, controls
- Output: RS-232-C
- Displays °C/°F/PSIG

A Voice from the Past

HELLO! HELLO! IS ANYBODY THERE?

Pleas for action presented by newsletter are notoriously unproductive, but my horoscope says I am high in my lunar (looney)? cycle, so I will try.

I lucked out already - I have an assignment from my boss which exactly coincides with my long-term ISA objectives - namely to determine how to encourage the following:

- Participation in technical societies
- Presentation and publication of technical papers

AND NOW THE ACTION

Please write, phone or holler across the fence to answer the following questions:

- What keeps you or your associates from participating in technical society activities (at all, or in greater depth or breadth?)
- What inhibits the presentation and publication of technical papers?
- What can I, ISA or your company management do to remove the above obstacles?

Please, Please let me know the answers ppn!!

Please don't leave me out here all alone and lonely -

Do it now!!

Darrell R. Harting, P.E.
Former President, ISA
Boeing Aerospace Co.

**MEETING
PICS**

L. K. St. James, Manager of Product Marketing and Sales for Bailey Canada is pleased to announce the appointment of **SHARP VALVE & INSTRUMENTATION INC.** as their distributor in Sarnia and South Western Ontario.

Their staff will be happy to provide any necessary assistance. Please feel free to contact their office with your Bailey inquiries.

SHARP VALVE & INSTRUMENTATION INC.
509 South Vidal Street
P.O. Box 872
Sarnia, Ontario
N7T 7J9
519-336-8484

This appointment will increase our coverage in the area's mentioned and is the result of Bailey's commitment to provide better service to our valued customers.

COLLEGE STUDENTS AVAILABLE FOR CO-OP WORK

The INSTRUMENTATION AND CONTROL ENGINEERING TECHNOLOGY (ICET) program offered at Lamton College is a six-term, three year Co-operative Education program which allows students the opportunity for related employment during their studies. This program teaches students to calibrate and trouble-shoot instruments, tune controllers, analyze control loops and determine appropriate strategies for control processes. Lab exercises on pilot plant apparatus both reinforces and compliments theory.

Currently in the fifth term, there are thirteen students eligible for the forthcoming work period from May to August 1984 inclusive. Potential employers are invited to contact Terry Cameron or Pat Cranston at the College's Co-operative office. (Call: 542-7751, Extension 307.)

Eligible Students for May to August Employment

Steve Faflak, Larry Filion, Neil Foster, Mike Grey, Scott Kartzmark, Mitch Krasinkiewicz, Gerald Lange, Dan Mullins, Thomas Templeton, John Trempe, Bret Ziller, Rada Vujic, and Scott Ferguson.

Need answers to MEASUREMENT PROBLEMS?

MEETING NOTICE

Instrument Society of America

SARNIA SECTION

P.O. BOX 206 / SARNIA, ONT. N7T 7H9

The fifth and final ISA Dinner Meeting of the 1983-1984 season will be the 'AWARDS NIGHT', to be held on Monday, May 28th, 1984 at the Sarnia Golf and Curling Club, Christina Street at Errol Road. The cocktail hour will commence at 6:00 p.m. followed by a Steak & Crab Dinner at 7:00 p.m.

Awards will be presented after Dinner.

Our after-dinner speaker will be Mrs. Deborah Austin, a practicing family lawyer in Sarnia. The subject of her talk will be 'SOAP OPERA LAW' and will cover family law, rights of individuals and protection under the Law.

Tickets will only be available prior to the meeting date.

Please contact one of the following by Thursday, May 24th, 1984 if you plan to attend.

Ron Kells	-	339-3428
Wayne Jamieson	-	336-5608
Howard Whitton	-	337-8251
Rob Sharp	-	336-8484
Ron Thurter	-	339-5815

Dinner costs will be:

Members	\$20.00 (double)	\$10.00 (Single)
Non-Members	\$40.00 (double)	\$20.00 (Single)

**Innovative
products from
Fischer & Porter**

- | | |
|------------------|---|
| Mini-MAG | Obstructionless and lightweight magnetic flowmeter in a compact package. Percent-or-rate accuracy too! |
| U.I.T. | A universal flowrate indicator and totalizer. Accepts any 4-20 mAdc input signal, linear or squared! |
| Chameleon | A powerful microcomputer programmable to perform a wide range of arithmetic and logic functions in process control and measurement. |
| 53MC | This microprocessor-based controller provides the flexibility and convenience of factory or user configuration of a wide variety of conventional or special purpose controller functions. |
| V3 | Enhanced vortex flowmeter for use in liquid, gas or steam applications. |

INSTRUMENT HOUSINGS

Thermon's selection of fully engineered instrument housings provides exceptional thermal and mechanical protection for a wide variety of industrial pneumatic and electronic process instruments. These high density, UV resistant polyurethane enclosures are available with complete mounting and installation accessories, including steam, fluid and Division 1 electric heaters.

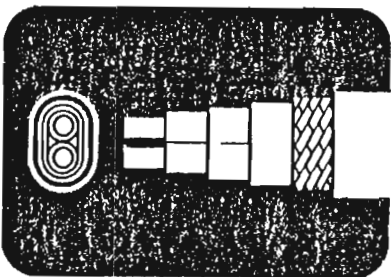

SELF-LIMITING HEAT TRACING

Thermon TSX™ is the first field fabricated, carbon matrix heater continuously rated to 190°C, suitable for pipe freeze protection and temperature maintenance applications. TSX will not overheat, has a low inrush current factor, withstands steam purging and can be installed in ordinary and hazardous areas.

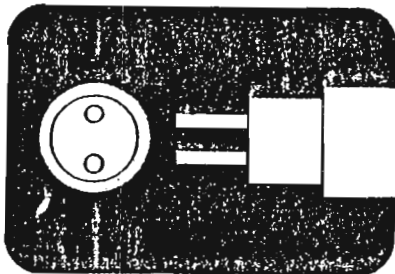

CONSTANT POWER DENSITY TRACERS

Thermon CPD™, constant power density electric heating cable for pipe tracing applications in ordinary and classified areas. CPD has a series of independent thermal zones to produce an even and uniform heat output. This electric tracer has zero inrush at start-up, uses standard line voltages, is easily monitored and is rated to 200°C exposure temperatures.

HIGH TEMPERATURE MI CABLES

Thermon Heatrace™ MI factory fabricated tracing cable for process temperature exposure to 500°C. The high nickel alloy sheath provides excellent immunity to hostile environments and chloride attack. Thermon MI heater sets are 600V rated and CSA approved in ordinary, Class 1 - Division 1 and 2 (hazardous) locations.

MEMBERSHIP APPLICATION

FOR NEW MEMBERS AND THOSE ADVANCING TO SENIOR GRADE

PLEASE ENROLL ME AS A NEW MEMBER OF ISA.

Senior Grade (\$35.00)

B.S. or engineering degree and at least six years work in instrumentation, two of which have been in a position of responsible charge; an advanced degree counts as one of six years. Or no degree but 10 years of work in instrumentation, two of which have been in a position of responsible charge. Responsible charge includes directing the activities of others in instrumentation work; or individual responsibility for instrumentation development, application or operation at a professional level; or teaching instrumentation or associated engineering and sciences of a professional nature. (Requires Admissions Committee review)

Regular Grade (\$35.00)

Any person interested in instrumentation and the objectives of the society.

Associate Grade (\$30.00)

Limited to those whose principal interests and occupation are not specifically in instrumentation.

Student Grade (\$5.00)

Enrolled as a full-time student; OR enrolled in a formal instrumentation apprenticeship course; an apprentice is eligible for student membership only during the first two years of his training.

DIVISIONS (\$3.00 each)

Also enroll me in the divisions checked below. Society membership is a prerequisite.

Aerospace Industries (b)

Data Handling & Computation (d)

Mining & Metallurgy Industries (v)

Scientific Instrumentation & Research (s)

Analysis Instrumentation (a)
