PRESIDENT'S MESSAGE

Hi everyone;

Just keeping everyone up to date on a few items concerning ISA and your Section as we close out ISA's fiscal year.

Having returned from the ISA Annual Fall Leadership Conference and the Annual Members Meeting and Council of Society Delegates it should be known that your ISA Society is still looking at change. It continues to strive to compete with other societies and organizations. There are still a great deal of emphasis on what the executive has completed as per our changes to our Mission and Vision statements, making them more direct, short and relevant. We have also rewritten our value statements. It seems that almost everyone is on board with change. We must look ahead to modify and change as a Section in order to fall in line with the Society while keeping you our section members and vendors engaged and informed. We of course continue to need your help in letting us know what is working and what isn't. Complacency is a trap that we all fall into and even though all seems to be operating okay no one is really paying attention and just

floats with our choices. We of course as in our ISA and normal life must embrace changes; attempting to keep them constructive and minimal. As you all know we still continue the struggle to find new members and therefore new executive members. It is a testament to all of you that have remained loyal and involved that we are able to maintain our Section.

At the Annual Members Meeting and Council of Society Delegates there were 78 Sections represented and there were no items of interest to vote on. Stay tuned for next year as we are about to review and suggest changes to some of our major documents; MOP and Bylaws etc.

One main item that came out of the Annual Meeting is that in the year 2020 ISA will celebrate its 75th Anniversary. There will be a lot of information coming on the plans and highlights for the year. For us As a Section we will be celebrating our 73rd year, how awesome is that! When we think of these timelines in today's world they are truly remarkable anniversaries.

We do not have a show this year. We do have though your member dinner meetings with various topics, the science fair, the golf tournament and the production of the Reference Guide. We are now looking into different places that we may set up tours and have section member participation so stay tuned. We as an Executive all continue to strive to serve you our members.

Our ISA Sarnia Section Reference Guide To The Measurement and Control Market for 2020 is still acquiring suppliers so if anyone knows of any new companies in our area or in Ontario please pass their names along to your Executive and we will ensure that someone will contact them. Just a comment for everyone we still believe in the paper copy as most look to have it sitting on or close to their desk. Do not fall into the trap that all believe that all can be gotten from the Internet. Yes you may grab your I-Phone and it does a quick search but most still wish to look in a book.

If you are not an ISA member yet I encourage you to join for there are many benefits that are afforded a member. Included are the standards and ISA specifications, ISA publications including the Intech magazine, the ISA website, seminars, training both web and classroom, industry networking and of course your local sections programs and events. The limit is only a personal limit. Many doors do open. Honors and awards are a big item for ISA also as it recognizes the individual and groups. Sign up and it will help enhance all that you are and wish to become in your field of expertise.

As always if you have any topic ideas for speakers please forward to our program chair. He can use any assistance in providing an interesting, current and enjoyable speaker to fill the dinner meetings, step up and let us know. We continue to strive for success and with all of your help we will get there.

As always any comments or concerns please let your Executive know. Remember any unspoken ideas or concerns are wasted thoughts unless we inform and act on them.

Hard to believe that I am at this time going to wish all of you whom I may not see a "Very Merry Christmas and a Prosperous, Safe and Happy New Year"

Thank you

Mike Murray
ISA Sarnia Section President
